PROJECTS

- **MobileKhajana - Mobile Shopping E-commerce Website**
Developed a full-stack mobile shopping e-commerce website, "MobileKhajana," that offers a user-friendly shopping experience. The project include both frontend and backend components, utilizing HTML, CSS, JS, PHP, and MySQL.
<https://github.com/DeepralShakya/MobileKhajana---Mobile-Shopping-E-commerce-Website>
- **News App**
A simple and responsive React-based news application that allows users to stay informed on current events. The app fetches real-time news data and categorizes it based on different topics. Features include a clean user interface and a seamless reading experience.
